RECENT ADDITIONS TO USSR HEAVY INDUSTRY PARK INCLUDE  
 METALLURGICAL EQUIPMENT FROM KRAMATORSK, SVERDLOVSK

HEAVY INDUSTRY DOMINATES SCENE -- Petrozavodsk, Leninskoye Znamya, 17 Nov 53  
 Heavy industry accounts for about 70 percent of USSR industrial production.

DESIGN CHANGE SAVES METAL IN CONSTRUCTION OF NEW MIXER -- Leningradskaya Pravda,  
 29 Oct 53

Machine shop No 1 of the Novo-Kramatorsk Plant imeni Stalin has completed  
 the assembly of a mixer having a capacity of 1,300 tons of molten iron. The  
 mixer is of new design, with a cylindrical rather than barrel-like container.  
 This change has enabled designers to reduce its weight by 15 tons, thereby  
 saving a considerable amount of metal.

Kiev, Pravda Ukrainy, 17 Nov 53

The Novo-Kramatorsk Plant imeni Stalin is increasing its production of  
 consumer goods and enlarging its consumer goods shop. Recently, the plant  
 manufactured over 7,000 beds, many wash basins and pails, and much enameled  
 and aluminum kitchenware.

In 1954, the plant will turn out 25,000 beds, some completely nickel-  
 plated, others partially nickel-plated. It will also produce 300 tons of  
 iron kitchenware, 200 tons of enameled iron, kitchenware and 150 tons of  
 aluminum kitchenware.

COMPLETE NEW PLATE STRAIGHTENER -- Leningradskaya Pravda, 29 Oct 53

The Staro-Kramatorsk Plant imeni Ordzhonikidze has completed the assembly  
 of a new large-capacity seven-roller plate-straightening machine. The plant has  
 also just assembled some new flying shears.

NEW BLOOMING MILL IS AUTOMATIC -- Moscow, Trud, 13 May 53

The Sverdlovsk Uralmash Plant has just completed a heavy automatic blooming mill, featuring mechanization of all blooming processes. Three hundred meters long, the housing for its stand alone weighs 90 tons. The mill will be able to handle blooms up to twice the size of those turned out on similar mills.

SHIP OUT WIRE MILL -- Moscow, Trud, 11 June 53

The Alma-Ata Machine Building Plant has just sent a VMA-6 wire-drawing mill to a cable plant. It will be used for drawing aluminum wire.

NEW ITEMS RANGE FROM TURNABLES TO HOTPLATES -- Tallin, Sovetskaya Estoniya, 22 Oct 53

The Tartu Teknik Plant has surpassed its 8-month plan, while at the same time effecting savings in raw material and fuel. Recently, the plant established production of a number of new items.

The plant will have completed its first group of turntables for narrow-gage cars by 1 November. Many castings have already been turned out for these turntables, which are of new design.

An economizer has just been completed, iron doors for boilers have just been put into production, and, in the consumer goods field, preparations have been completed for the production of hot plates.

RENDER AID TO MTS WORKERS -- Baku, Bakinskiy Rabochiy, 3 Nov 53

The Baku Plant imeni Shmidt, acting in accordance with a decision of the Plenum of the Central Committee CPSU, has assumed the responsibility of guiding and aiding the Ali-Bayramlinskaya MTS.

The plant boiler shop has begun work on an overhead traveling crane for the MTS machine shop. Plant electricians will soon arrive at the MTS to inspect and overhaul its power plant. A brigade of plant construction workers will help with various building problems. The brigade attached to the plant garage will repair two MTS trucks and build a stand for running-in tractor motors. -- P. Mamedli, Director, Plant imeni Shmidt
